 **www.zestylabs.in**

A Simple Business Management Software

Built for Shops & Small Businesses

OdooMeter is an Odoo-based billing, inventory, accounting, and POS software developed by Zesty Labs specifically for small and growing businesses.

It helps businesses manage daily operations from a single platform, eliminating the need for multiple software applications and manual processes.

Whether you operate a retail store, supermarket, pharmacy, restaurant, grocery shop, service business, or trading company, OdooMeter simplifies business management while keeping costs affordable.

Manage Your Business from One Platform

Odoometer helps businesses manage everyday operations through four essential areas: billing, inventory, accounting, and business reporting.

Billing & Inventory

Create invoices quickly while keeping inventory updated automatically.

- **GST & Non-GST Billing**
- **Barcode Billing**
- **Thermal, A4 & A5 Printing**
- **Live Stock Tracking**
- **Low Stock Alerts**

Accounting & Reports

Create invoices quickly while keeping inventory updated automatically.

- **Sales & Purchase Tracking**
- **Expense Management**
- **Customer Payment Tracking**
- **Business Reports**
- **GST-Ready Records**

Smart Features That Power Your Business

Odoometer is more than billing software. It includes powerful tools that help businesses automate operations, improve customer service, and reduce manual work.

WhatsApp Integration

- Instant bill sharing
- Customer communication
- Faster payment collection
- Professional customer experience

POS & Device Integration

- Thermal printers
- Barcode scanners
- Weighing scale integration
- Handheld POS devices
- Touch POS terminals

Android Handheld POS Device

Wide Screen POS Machine

OdooMeter Hardware Compatibility

OdooMeter works seamlessly with modern POS devices, helping businesses speed up billing, improve accuracy, and deliver a better customer experience.

- **Thermal Printers**
- **Barcode Scanners**
- **Barcode Label Printers**
- **Weighing Scale Integration**
- **PLU Code Generation**
- **Handheld POS Devices**
- **Touch POS Terminals**
- **Customer Display Solutions**

Thermal Printing

Fast and reliable thermal printing for invoices, receipts, and order slips with clear and crisp output.

Barcode Printing

Efficient barcode printing for product labels, price tags, and inventory management with precise clarity.

Thermal Printing & Barcode Printing

OdooMeter supports high-speed thermal printing and barcode printing to ensure fast, accurate, and reliable billing and labeling for your business.

- ✓ **High-Speed Performance**
Print invoices, receipts, and labels quickly without delays.
- ✓ **Clear & Sharp Output**
Get crisp text, clean barcodes, and professional-quality prints.
- ✓ **Business Efficiency**
Reduce manual work and speed up billing, inventory, and labeling processes.
- ✓ **Seamless Integration**
Works smoothly with OdooMeter for a complete POS and retail experience.

Real-Time Weight Capture

Automatically capture product weights from electronic weighing scales and calculate prices instantly within the system.

Weight-Based Product Billing

Sell products by weight with automatic price calculation, reducing manual work and improving billing accuracy.

Weigh Scale Integration & Smart Retail Billing

Seamlessly integrate electronic weighing scales with OdooMeter to capture product weights automatically and calculate accurate prices in real time. Improve billing speed, eliminate manual errors, and deliver a smooth checkout experience for your customers.

Accurate Weight-Based Pricing

Automatically calculate product prices based on the actual weight captured from the scale.

Faster Checkout Experience

Instant weight synchronization between scale and system reduces billing time and improves efficiency.

Eliminate Manual Errors

Avoid mistakes from manual weight entry and calculations for 100% accurate billing.

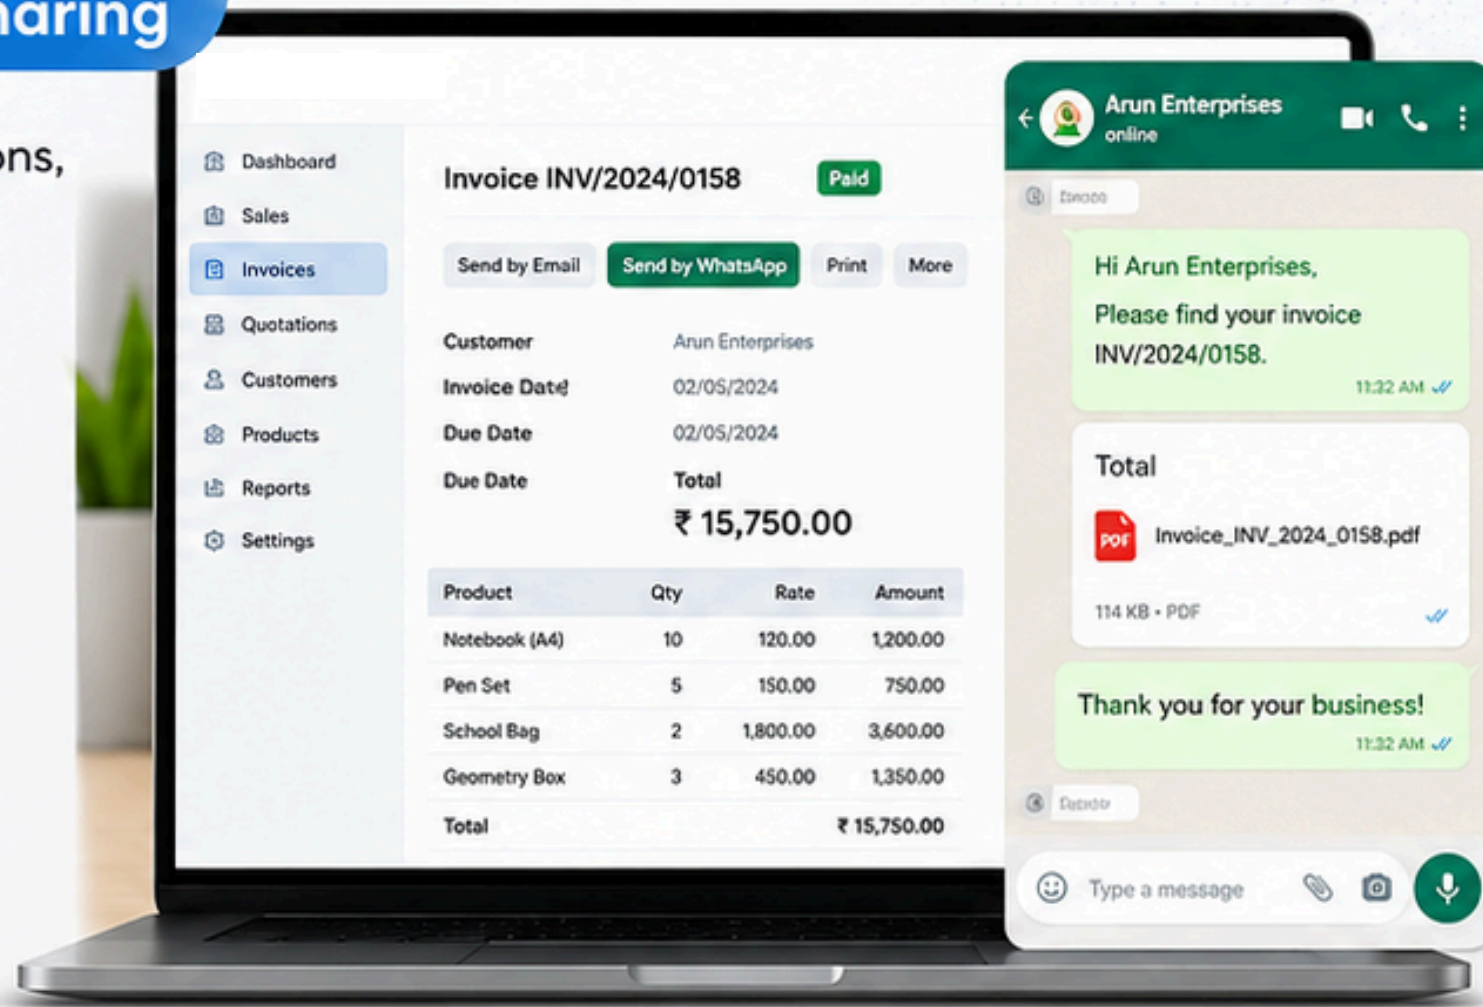

Perfect for Retail Businesses

Ideal for supermarkets, grocery stores, fruits & vegetables, meat shops, bakeries, dry fruits stores, and more.

WhatsApp Invoice Sharing

Send invoices, quotations, and receipts instantly through WhatsApp with a single click, ensuring faster delivery and better customer communication.

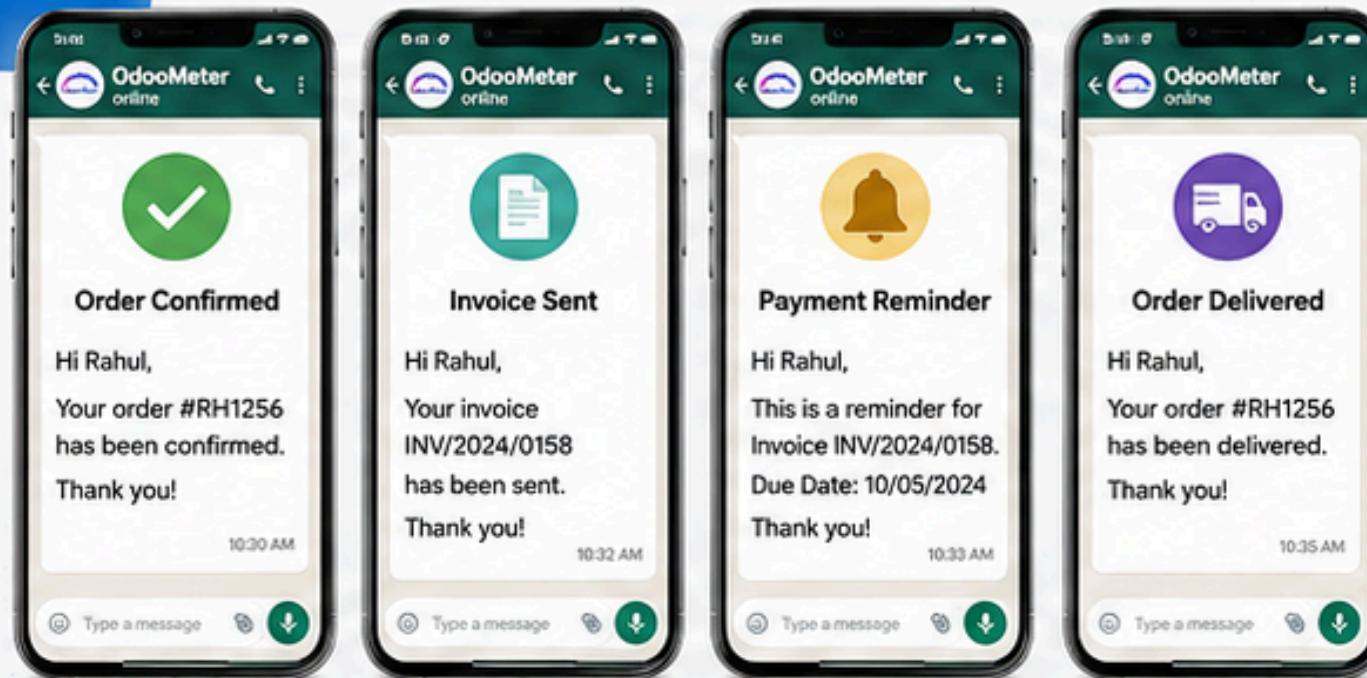

WhatsApp Integration & Automated Messaging

OdooMeter seamlessly integrates with WhatsApp, enabling businesses to send invoices, quotations, payment reminders, order confirmations, and customer notifications directly through WhatsApp. Improve communication, automate follow-ups, and provide a faster customer experience from a single platform.

Automated Customer Notifications

Automatically send order confirmations, payment reminders, delivery updates, and service notifications without manual follow-ups.

Instant Communication

Reach customers directly on WhatsApp for faster responses and improved engagement.

One-Click Document Sharing

Share invoices, quotations, receipts, and billing documents instantly from OdooMeter.

Automated Notifications

Reduce manual work with automated reminders, confirmations, and status updates.

Seamless Integration

Works smoothly with OdooMeter to enhance customer communication and business efficiency.

Why Businesses Choose OdooMeter
